

Consenting, Building Compliance & Resolution

Consents, compliance and getting to sign-off

CORE COMPETENCY

03

of six

WHAT WE DO

We plan and manage resource and building consents, and resolve compliance problems on existing buildings, taking the work through to council sign-off.

Key services and capabilities

- Resource consent strategy, planning and management
- Building consent management through to CCC sign-off
- Auckland Council compliance and statutory obligations
- Certificates of Acceptance and unconsented work advice
- Council information requests and Notices to Fix
- Managing remedial work to resolve compliance issues

Typical project types

- Developments needing resource consent, including hearings
- Building consents for new build and refurbishment
- Outstanding consents and missing CCCs
- Unconsented work needing a Certificate of Acceptance
- Notices to Fix and remedial work
- Buying or selling property with unconsented work

RELEVANT PROJECTS

PROJECT	WHAT WE DID
Hobsonville Marine Industry precinct, est. \$300M	Consents for the marine infrastructure and marina obtained through Environment Court and planning hearings, with the strategy led across multiple agencies.
Westhaven Marina Auckland City Council	Waterfront master plan. Project team member, contributing to the resource consent strategy and involved in feasibility and costing studies.
West Auckland RDA Covered riding facility, ~\$5.3M	Resource consent and building consent for the new covered arena, stables and civil works.

The value we bring

- Consent strategy settled first, so the right structure and team are in place from day one
- One person managing council, consultants and remedial work through to sign-off
- Clear advice on unconsented work, including when buying or selling

What sets us apart

- Experience through Environment Court and planning hearings
- Auckland Council compliance knowledge, from CCC close-out to Notices to Fix
- Practical remedial plans, managed through to completion
