

Planning & Asset Management

Long-term plans for property and maintenance

04

of six

WHAT WE DO

We prepare asset management plans, 10-year property plans and long-term maintenance plans that help owners budget for and prioritise the work their buildings need.

Key services and capabilities

- 10-year property planning (10YPP)
- Asset management plans
- Maintenance planning and scheduling
- Long-term Maintenance Plans (Unit Titles Act 2010)
- Total cost of ownership planning
- Sustainability and environmental scoping

Typical project types

- School and campus property plans
- Body corporate and apartment buildings
- Community and sporting facilities

RELEVANT PROJECTS

PROJECT	WHAT WE DID
Rangitoto College 10-year property plan, \$4.5M	Full plan across 134 classrooms. Delivered a dance studio, 22 science labs, gym upgrade, reroofing, sportsfields, power infrastructure and carpark to Ministry of Education requirements.
UNITEC New Zealand 11-year facilities programme	Rolling programme of capital works on a live campus, planned and delivered each year across multiple projects, consultants and contractors.
West Auckland Riding for the Disabled Asset and maintenance planning	Wrote an asset management plan and a long-term maintenance plan.
Body corporate planning Unit Titles Act 2010	Preparing, reviewing and implementing Long-term Maintenance Plans: planning future maintenance, budgeting, prioritising works and managing delivery.

The value we bring

- Plans that carry through into delivery
- Budgets and priorities owners can rely on over the long term
- Compliance with Ministry of Education and Unit Titles Act requirements

What sets us apart

- Planning and delivery handled by the same person
- Experience across schools, campuses and body corporates
- Solar and environmental scoping included
